

RAMKY INSTITUTE OF PHARMA RESEARCH & TRAINING

TAKING PHARMA KNOWLEDGE TO NEW FRONTIERS

IF YOUR DREAM IS HI - PHARMA TRUST RAMKY TO MAKE IT A REALITY

THE GENESIS

When India's infrastructure giant Ramky joined hands with Andhra Pradesh Industrial Infrastructure Corporation to develop a Pharma City of global dimensions, a Pharmacy educational Institution of world standards was already on the cards. Being in the thick of action in the striding Pharma revolution - as infrastructure providers to huge Industrial factories and technology harbingers to manufacture bulk drugs and chemicals - Ramky envisioned the need for hi-quality Post Graduation education. The visionary and socially concerned management of the robust Group lost no time in translating its idea into practice and the world-class **Ramky Institute of Pharma Research and Training (RIPRT)** was founded. And what better could happen to Pharmacy enthusiasts of India in general and of Andhra Pradesh in particular, than a Ramky managed world-class professional Pharma education, research and training centre?

WHY RIPRT?

The resurgent world economy is witnessing tremendous growth and the estimated worth of the Indian Pharmaceutical Industry alone is about 23 billion USD. The domestic market is worth about USD 12.5 billion. The 5.5 billion dollar Pharma Industry in the Country which is growing at an annual rate of 8.9 percent needs a skilled work force of 10 million to run its 250 major companies and over 20,000 registered units. Which means that India needs to cultivate, educate and train pharmacy specialists of high calibre.* This is precisely why Ramky has set up a high standard institute right in the lap of its Pharma City in Visakhapatnam.

THE INIMITABLE RAMKY TOUCH

Ramky Group, known for its value-based corporate practices wherever it has a presence, is also recognized for a wide range of charitable community development and education projects - through encouraging innovative initiatives. It is this outstanding humane feature of Ramky's corporate character that led to the realization of Ramky's Pharma College – RIPRT.

It is this touch of success of the multi-thousand crore Ramky Group that lends to RIPRT, an instant air of reassurance.

BRAINS TO TRAIN

Standing on the solid ground of state-of-the-art infrastructure including a title rich – electronically supported library and complete research-ready laboratories, RIPRT is headed by Prof. JVLN Seshagiri Rao. Prof. Rao taught M.Pharmacy at the famous Andhra University for over 30 years, training and guiding many students to success. He is a noted researcher and a proved team leader.

The team of professors at RIPRT are committed to the cause of creating equally brilliant platoons of Pharmacy Heads.

THE ADVISORY BOARD

Ramky Institute of Pharma Research and Training has a distinct advantage - the presence of five eminent academicians in the field of professional education. The very association of the illustrious Prof. (Dr.) Chandra Kanth Kokate makes a great difference to RIPRT. Prof. KPR Chowdary (Andhra University), Prof. Y Madhusudhan Rao (Kakatiya University) Prof. N Satyanarayana, (NIPER), Dr. M Venkata Reddy, Former Director, DCA – AP, are all epitomes of academic knowledge and administrative efficiency.

ON THE SHORES OF HISTORY

RIPRT is located on the serene and shimmering shores of the port city of Visakhapatnam, a glorious town in the mighty Kalinga empire. The Institute is tucked in Ramky's flourishing Jawaharlal Nehru Pharma City at a logistically convenient distance from the centres of transport and the airport. It is situated in environment-friendly surroundings suitable for focused learning and training.

COLLABORATING UNIVERSITY IN THE NEIGHBOURHOOD

RIPRT has academic collaboration with the century-old Andhra University for knowledge sharing, training and awarding the MS Degree to successful Ramky students.

The Institute will also, from time to time, invite accomplished foreign professors and researchers to Ramky Campus for the benefit of the students.

Ramky has also signed agreements with a number of established factories and industrial units which will facilitate the students in study, research and executing project works.

MS DEGREE COURSES

- Industrial Pharmaceutics
- Pharmaceutical Analysis & Quality Assurance
- Drug Regulatory Affairs

HIGHLIGHTS OF THE COURSE

- Syllabus includes recent advances and trends in Pharmaceutical Sciences
- Industry-friendly syllabus
- Teaching by well-qualified and experienced faculty, guest lectures by University faculty, expert lectures by manufacturing chemists and scientists from Industry
- State-of-the-art laboratories with latest manufacturing equipment and sophisticated analytical instruments
- Exposure to industry right from the first year of the course
- Hands-on training in various departments of Pharmaceutical industries
- Regular classroom seminars for thorough revision and understanding of lecture topics

ELIGIBILITY

- Bachelor's degree holders in B. Pharmacy
- Post-graduates in M.Sc. (Chemistry) from any recognized university
