PREFACE

Greetings from School of Distance Education. Information Technology revolutionized all areas of activity in the contemporary society. Accordingly the requirement and the demand thereby for computer professionals has grown significantly. The Post Graduate Diploma in Computer Programming and Applications (PGDCPA) and Certificate Courses are designed with the objective of creating computer awareness among the professionals and specifically to cater to the needs of those who wish to acquire a fair degree of competence in computer programming skills. The diploma is offered with effect from the academic year 2000-01 and Certificate Courses are being offered from the academic year 2002-03.

Transfer Certificate and Migration certificates are not required for the candidate seeking admission into these P.G. Diploma and Certificate Courses.

The students are requested to be in touch directly with the SCHOOL OF DISTANCE EDUCATION and they need not seek the assistance of any private organization. The candidates are further instructed to send the application forms directly to the School by Registered Post only.

SCHOOL OF DISTANCE EDUCATION

A REVIEW

Distance Education is an accepted mode of education. This system is cost effective. It permits greater flexibility than conventional education. It is learner centered.

The School of Distance Education of Andhra University started functioning from 1st July, 1972, with B.A. and B.Com., degree courses under New Scheme with the approval of the University Grants Commission. The School introduced Admissions under open system into B.A. and B.Com. degree courses in 1976. Under this system, Entrance Examination is conducted for admission into B.A. and B.Com degree courses. No formal academic qualification is required to take the Entrance Examination. But the candidate should have completed 18 years of age.

The School of Distance Education is run by skilled teachers and educational administrators who always strive to reach high academic standards. The core academic staff of the School will carry on the academic activities with the help of the well experienced teachers in their respective fields, who are working in this University as well as in other Universities. A student who is enrolled into this School studies the same syllabi, and is awarded the same degree as in the case of regular students of this university.

A student after admission into the School of Distance Education receives study material periodically in all the subjects. In order to supplement the training through the reading material the School will arrange Semester end personal contact programmes at selected centers to establish the missing link of direct contact between the teachers and pupil. The School invites well experienced teachers to participate in these personal contact programmes besides our academic staff. During these programmes the teachers will give an extensive review of the subjects and clarify the doubts of the students. Computer Practical training is imparted during Personal Contact Programmes.
